THE Hahnemann Medical College OF PHILADELPHIA.

The summer course of instruction in this Institution, commences on the first of April, and continues until the last of June. The branches taught in this course include several specialties, with collateral branches of medicine. The Preliminary course of Lectures commences the last of September and continues for two weeks; the Regular course beginning on the second Monday in October, and continuing until the first of March following.

The seats of both Lecture Rooms in the College Building, have been cushioned; marble-top tables, and marble wash basins placed in the Dissecting Room, and other improvements introduced, calculated to add to the convenience and comfort of the Class, and enhance the facilities for instruction.

The advantages of this Institution are:

I. Its location in the centre of the great Medical Emporium of the Country, a city filled with interesting objects and historical recollections, and from its salubrious climate, a most desirable place for spending the winter months.

II. From the accumulations of over a quarter of a century, its teaching facilities have acquired a most complete character; its chemical and philosophical apparatus is ample while its anatomical museum, is unsurpassed, containing nearly 5,000 specimens.

III. A medical library of nearly 2,000 volumes, to which students have free access.

IV. Unlimited clinical advantages, as offered by the Homœopathic Hospital adjoining the College, with the various free clinics of the several hospitals in the city.

Several Medical Doctors who have used the Compound Oxygen as *patients* endorse my opinion that this is the most remarkable curative agent ever known.

I am ready to help any physician in good standing to the possession of this agent upon reasonable terms.

Send a 25 cent note and get full information upon the subject.

DIRECTORY

OF

Homœopathic Physicians

THE publisher, in issuing the second edition of his directory, returns his sincere thanks to the large number of physicians, who have so kindly and carefully furnished *material* for the preparation of this list. It is impossible for such a work, however small, to be free from errors; owing chiefly to the changes by removal, that are constantly occurring. Physicians are requested, therefore, to notify the publisher of any omissions or other errors in the directory, and of all changes by removal, death or addition to our number, as they occur. The counties are arranged alphabetically. The name of the physician by whom Homœopathy was introduced into each county, with the date, is given so far as known.

SMITH'S

Homœopathic Pharmacy,

(Established 1844. Incorporated 1872.)

107 Fourth Ave., New York.

THE PROFESSION SUPPLIED WITH
TINCTURES,
TRITURATIONS,
MEDICATED GLOBULES, ETC.,
ALKETHREPTA,
SUGAR OF MILK,
SUGAR GLOBULES, ETC.,
BOOKS AND CASES
FOR PROFESSIONAL
AND FAMILY USE, ETC.

SMITH'S 30TH TRITURATIONS. We have a list of about *two hundred* remedies triturated up to the 30th centesimal, (corresponding to the 60th dec.) potency. These triturations have been used with great success by very many of our most prominent and successful physicians. Lists sent on application.

ALKETHREPTA is the name given to a superior ARTICLE OF DIET, to distinguish it from various other preparations of Chocolate. It is prepared from the best COCOA BEAN, (*Theobroma Cacao*,) the highly *nutritious natural butter*, or oil, of which, is not extracted, as in the ordinary homeopathic or soluble chocolates, but so neutralized as not to derange the stomach of the most delicate.

Owing to its readiness of digestion and quickness of assimilation, it is, as its name implies, a **NOURISHER OF STRENGTH**. Its nutritious and mildly stimulating qualities, its purity and the facility with which it is prepared for use, *not requiring* to be boiled, recommend it as an excellent substitute for *tea, coffee, and alcoholic drinks*, in cases of extreme exhaustion. It has received the unqualified endorsement of many of our most prominent practitioners, and is highly recommended by DRs. B. F. JOSLIN; CARROLL DUNHAM; A. K. GARDNER; S. SWAN; GEO. E. BELCHER; JOHN F. GRAY; L. HALLOCK; HENRY D. PAINE; C. NEIDHARD; L. W. FLAGG; J. BERENS; CONSTANTINE HERING; H. N. GUERNSEY; O. B. GAUSE; R. SARGENT; AD. LIPPE; J. KITCHEN; A. R. THOMAS, C. WESSELHOEFT and others. Send for a sample and descriptive circular.

SMITH'S CHOCOLATE CONFECTION. This delicious confection is offered as a nutritious and healthful substitute for many of the candies, more or less injurious, so largely consumed by children and adults. It can be eaten freely with advantage. It contains no spices, animal fat, coloring matter or other adulteration, and, like Alkethrepta, owes its delicate flavor solely to the fine quality of the Cocoa Bean, from which it is prepared. It is put up in sticks and cakes to be eaten as candy.

— THE —

Homœopathic Mutual Life Insurance Company,

231 Broadway, New York,

IS NOW IN ITS EIGHTH YEAR AND HAS AN ACCUMULATION OF
Over \$650,000.00.

Its permanency and success are firmly established.

Its Interest Income pays its death losses.

Its Management is careful and economical.

It combines thorough security with liberality.

It has never litigated a single death claim out of the \$260,000 it has
paid to Widows and Orphans.

LOWER RATES TO HOMŒOPATHS.

This Company is now publishing some new facts, which show the superior efficacy of homœopathic practice. These data, taken from the actual experience of all the Life Insurance Companies which have ever tabulated their risks according to the medical treatment employed, show that, upon \$48,000,000. of insurance upon homœopathic lives, the death losses have amounted to less than \$360,000.; while upon \$22,000,000. of non-homœopathic insurance, the death losses have amounted to more than \$349,000.; conclusively proving the soundness of our rule in insuring homœopaths at reduced rates. The tracts, entitled: "Why Lower Rates to Homœopaths?" and the "Which Medical Practice," (now in its fourth edition,) are furnished gratuitously to physicians for distribution.

Correspondence solicited, and good agents always desired.

D. D. T. MARSHALL,
President.

E. M. KELLOGG, M.D.,
